DETAILED ACTION

Response to Amendment

1. The amendment filed on October 8, 2003 has been entered; no new claims have been added.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Son USPN 6,02,088.

Son discloses in figs. 3 and 4 a transistor, comprising a channel region facing a gate electrode 49a, the channel region having a partially distorted portion 57 distorted in a thickness direction of the channel region; source and drain regions 53 connection to the channel region in a semiconductor film in contact with a surface of an insulating substrate; a gate insulating film 47 formed at least over the channel and extend through the source and drain regions 53 and a recombination center formed around the partially distorted portion, the recombination center having a relatively low degree of crystallization among crystal semiconductor films forming the channel region.

Allowable Subject Matter

4. Claims 1-7 and 13-17 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter:
The prior art fails to disclose the device structure as recited in claims 1 and 17. Specifically, the references of record do not teach or make obvious a TFT with a deformed channel region, which extends through a gate insulating film.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (703) 605-1227.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on (703) 308-6601.
